YEARS OF
BUSINESS

BMC Automotive Fasteners is a wholesale supplier of quality automotive products comprising fasteners, clips, bolts & nuts, screws, washers, tools, wiper-blades, auto-electrical and auto-maintenance products. Other products stocked also include Metal Threads, Rivets, Split Pins and numerous other automotive items.

A Toowoomba based business, *BMC* services the Darling Downs and South Burnett regions, Central Qld, Western Qld and Northern NSW.

The company was first established in 1996 and is a small, family owned and operated business.

The business initially commenced trading primarily supplying a small range of fasteners and clips to the Toowoomba and surrounding districts. These lines quickly grew and expanded into the large selection currently available together with a large range of automotive bolts & nuts. A high quality range of auto-electrical products was then introduced and forms an integral part of the business. In more recent times the business has branched into the world of tools importing and specializing in a top line professional brand tool, of which has also quickly become a valued addition to the business. Together, with a high quality automotive maintenance product, these additional lines have been appreciated and welcomed by our customers. The research and sourcing of new and additional stock lines is a continual process.

At *BMC* we take pride in our excellent customer service and are proud of our long-term customer relationships. We appreciate our customers needs are a high priority at all times and endeavour to maintain a high standard of service providing quality products at competitive pricing.

The BMC Man

Nuts and Bolts are good for your car,
They make them speed, they make them fast.
If you come to BMC, he will say,
"No worries mate, just leave it with me".

You will get what you need in a blink of an eye,
And hey, let me tell you...your car will now glide!

His name is Brian, and he is the man,
He will fix whatever he can!

So pick up the phone and give him a call,
And straight away, he'll be on the ball!

Our Friend, Brian

He travels around the country,
In his big white "V-Dub" van.
And visits many townships;
Well, as many as he can.

Early on a Monday morning,
We'll see our friend depart.
He likes to rise up early,
So that he gets the "early start".

With nuts and bolts and screws
And goodness knows what's more,
We know the van is loaded
From ceiling to the floor.

He calls at many places
To sell an auto part or two,
And keep the customer happy,
For only the best will do.

So, day by day and mile by mile
He plies his business trade;
I guess he'll keep on working, until his
fortunes made!
